

ED & LINDA BAKER ARE "GOING GLOBAL"!!!

We are Ed & Linda Baker, missionaries with The Mission Society since 2000. Through our water and sanitation ministry called Ministerio Agua Viva (Living Water Ministry) we have proclaimed the Gospel of Jesus Christ through the access of clean abundant water in Central and South America. We have lived in Latin America full-time since 2001 and have been blessed to bring over 30 communities clean water and to have the opportunity to preach the Gospel of Jesus Christ.

We have been asked by our mission agency, The Mission Society, to take over as the Co-Directors of the Global Resource Team (GRT). The GRT is a ministry of The Mission Society comprised of specialists and professionals answering the call to serve as support for field missionaries, indigenous churches or groups and other mission agencies. We will also serve as the Water and Sanitation Team Leaders of the GRT, continuing our dedication to provide clean water to the less fortunate on a global basis. These changes have enabled us to relocate to the Atlanta, GA area which will serve as our "home base". This move will not only facilitate international travel, but will also reduce the costs that we were incurring maintaining a home and ministry operations in Nicaragua, Central America.

We are very excited about this new phase in our lives as missionaries and we hope that all of our donors and prayer partners will continue with their faithful support. While our "in-country" costs overseas will be reduced, we will have greater travel costs. Please prayerfully consider continuing your support to this important ministry. If your group or organization would like for us to present the GRT ministry, please contact us.
